

O Praise the Lamb

Thanks for downloading this music! I have included both chord charts and lead sheets for the keys of D and G. The key of G may be ideal for congregational singing. I also included one in the key of D for lower singers. Between the 2 charts, you should be able to find a comfortable place to sing it by using a capo for guitarists (if necessary) or the transpose button if you have that on your keyboard. Otherwise, you'll probably just have to transpose it if you need a different key. In the YouTube video, I play it in G# with an odd capo configuration but I won't go into all of that here.

The lyrics are an adaptation of the worship from the book of Revelation (mostly chapters 5 and 7).

Feel free to use this song for worship at your church. If you are a worship leader and your church reports to CCLI, it would help me if you include this song in your report (if your church decides to sing it in worship).

God bless!
